

COMPREHENSIVE ASSESSMENT MANUAL

1. Log in to the iGOT Content Portal at cbp.igotkarmayogi.gov.in using your credentials.

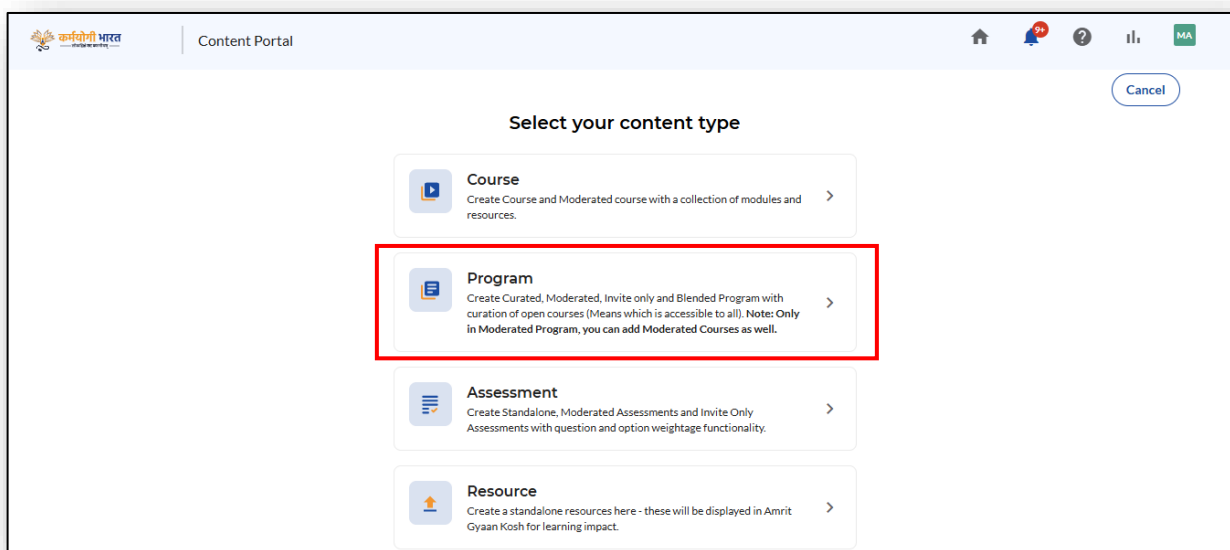

Please ensure that you have both Content Creator and Content Reviewer credentials with you.

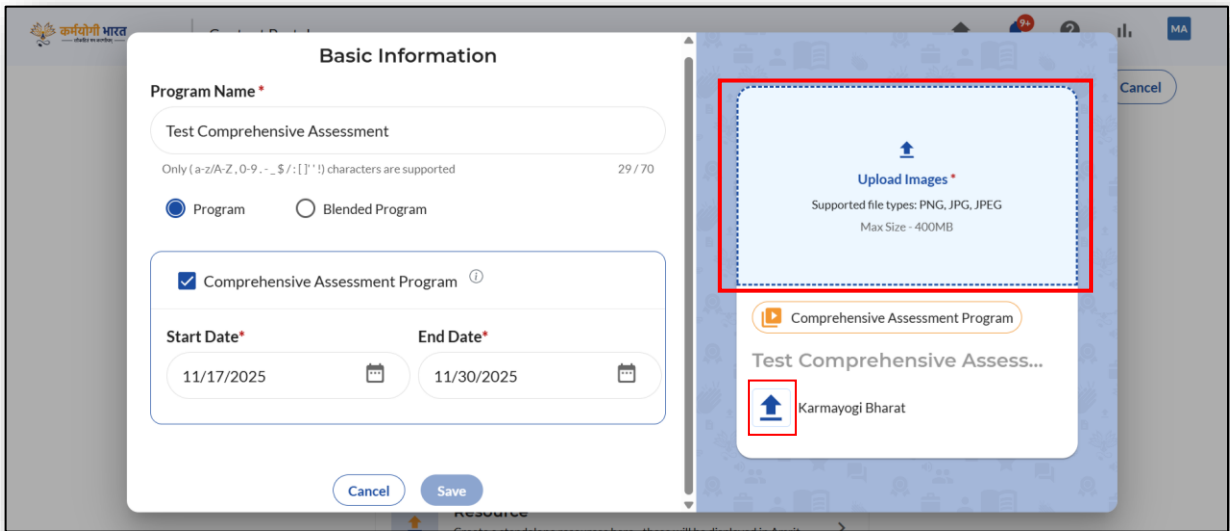

- Once logged in, navigate to the 'Build Your Content' section and click on the 'Create Content' button.

- For APAR Comprehensive Assessment, make sure to select 'Program' as your content type for creation. (*Note: Do NOT select the Assessment section.*)

6. Upload the image and logo for the assessment on the right side.

Comprehensive Assessment Program

Test Comprehensive Assess...

Karmayogi Bharat

8. Begin adding content to your assessment by clicking on 'Add Content' in the left panel.

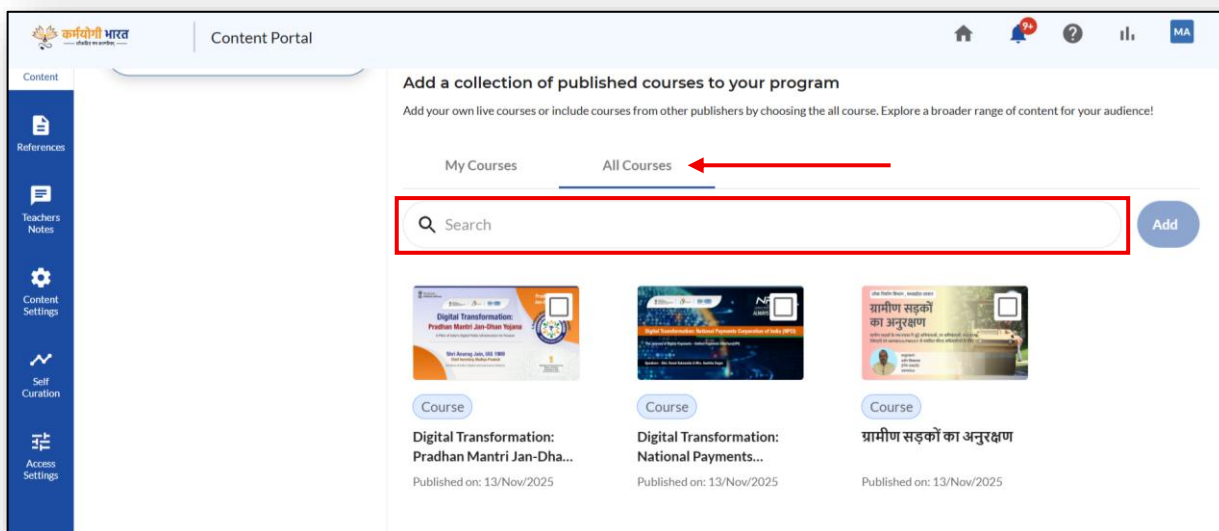

9. You can add both Courses and a Comprehensive Assessment.
(Note: 1. The Courses section should include the mandatory courses for which the APAR Comprehensive Assessment is being prepared.
2. The Comprehensive Assessment section will contain the cumulative question bank covering all selected courses.)

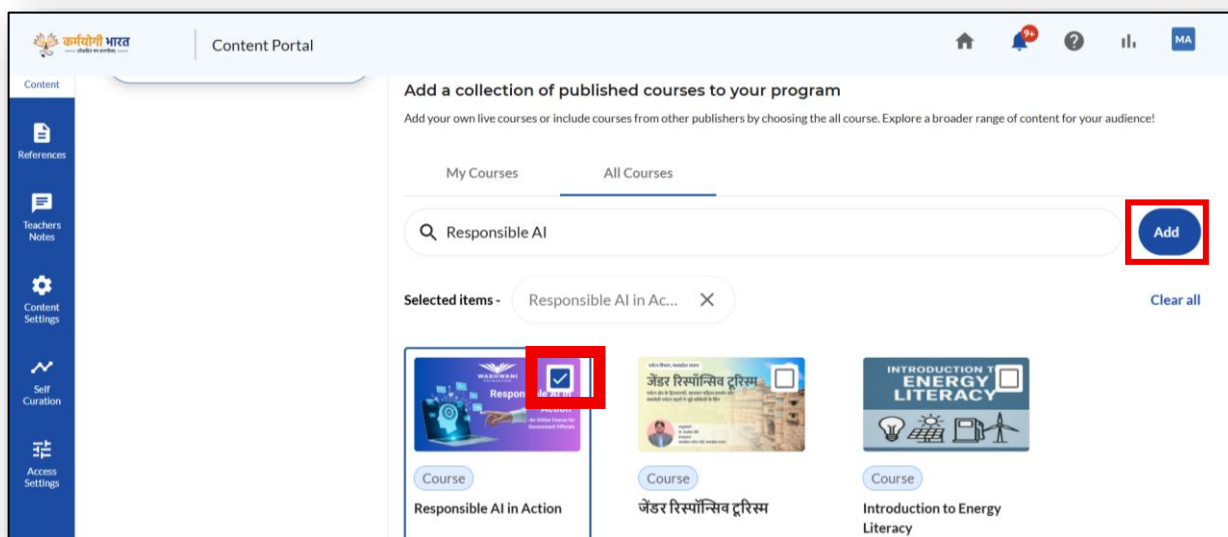

10. To link Courses, click on ‘Course’.

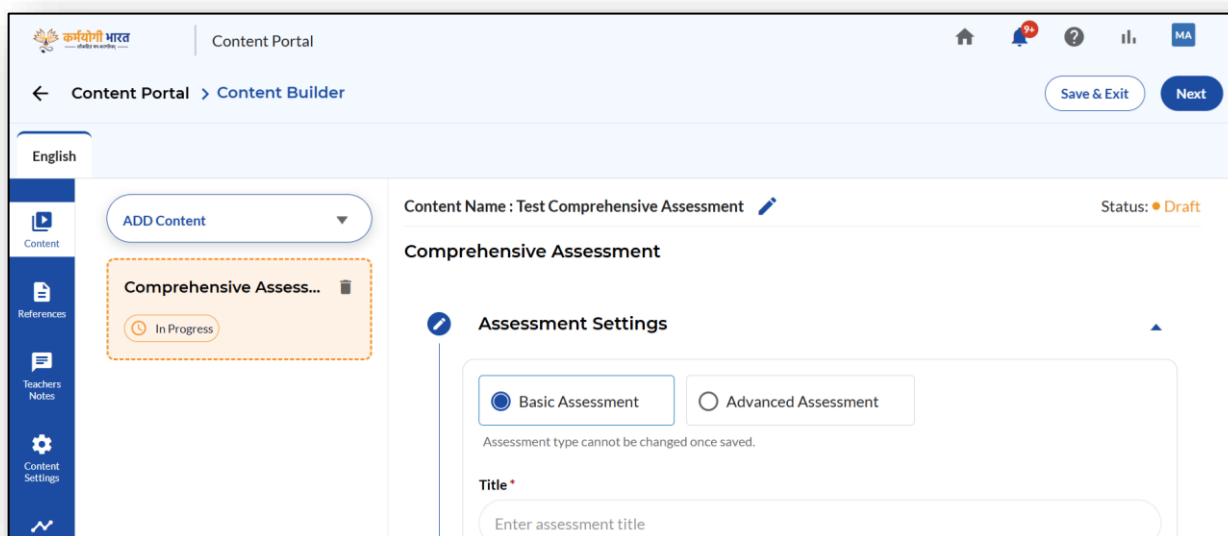

11. To add Courses, go to the repository of All Courses and search for the course by name. (Note: The courses for the APAR Comprehensive Assessment are to be selected from the list of courses prescribed for mandatory completion, and a minimum of 3 courses need to be selected.)

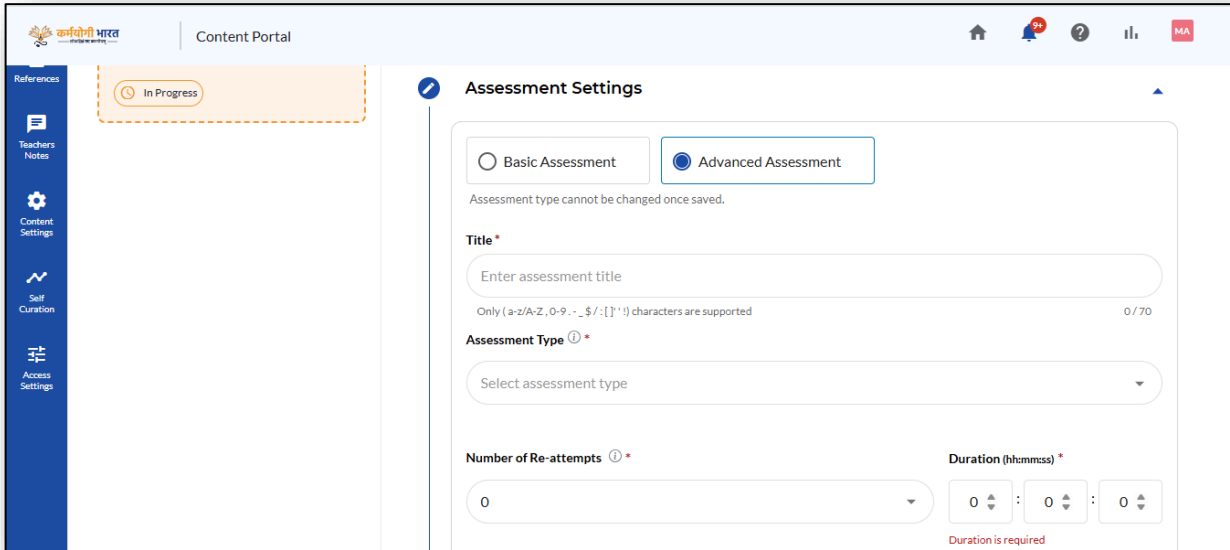

12. Click on the check box of the desired course and click on 'Add'.

13. To add a Comprehensive Assessment, click on Comprehensive Assessment in the 'Add Content' section. (Note: Once the courses have been identified, a Question Bank must be prepared comprising 200 to 300 courses from the selected courses. These questions would be application-oriented and must be different from the end-of-the-course assessments already in the courses.)

- Configure the Assessment Settings by selecting the Advanced Assessment (which covers complex and high-order thinking questions that are essential for advanced competency levels). Enter the Title (should be the same as the Program Name mentioned at the beginning). Enter the Title (should be the same as the Program Name mentioned at the beginning).

0 : 30 : 0

16. Define the number of sections. Type '4' in the 'Total number of Sections'.

These 4 options will be: Easy, Medium, Difficult and HOTS (High Order Thinking Skills), which will help in assessing a wide range of competencies, from basic understanding (Easy) to advanced analytical and problem-solving skills (HOTS)

Content Portal

Assessment Type *

Question Weightage

Total number of sections *

0

Section is mandatory

Show Marks/Question *

☐ Yes ☒ No

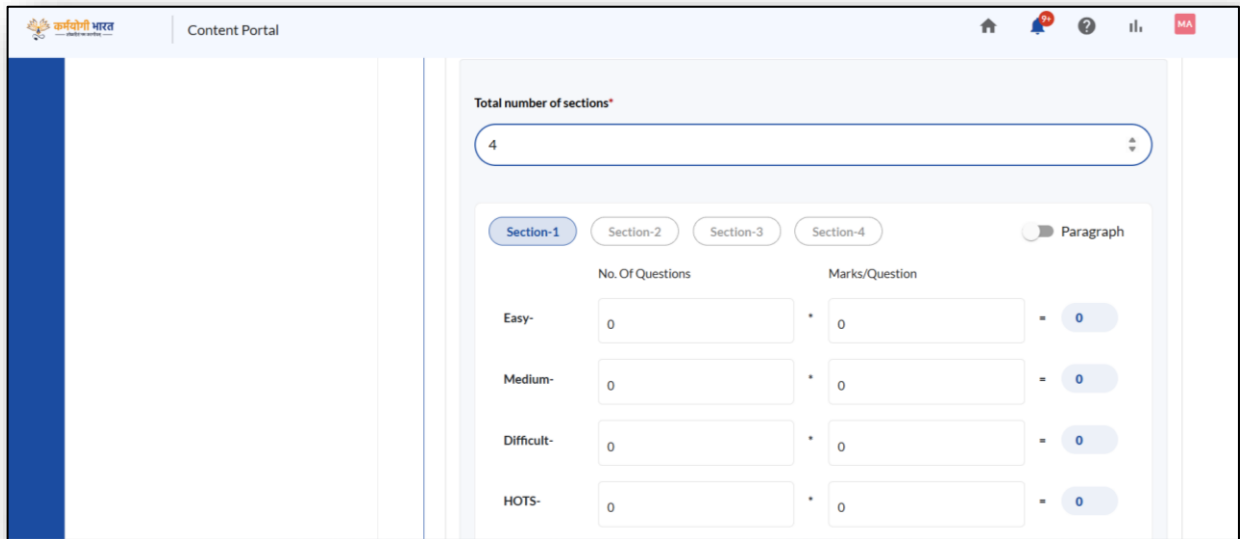

Minimum Passing Percentage *

0

Negative Percentage/Question *

0%

17. Enter the number of questions by difficulty level and assign marks for each section.

Content Portal

Total number of sections *

4

Section-1 Section-2 Section-3 Section-4 Paragraph

	No. Of Questions		Marks/Question	
Easy-	0	*	0	= 0
Medium-	0	*	0	= 0
Difficult-	0	*	0	= 0
HOTS-	0	*	0	= 0

This can be 48-50. Full mark will be 100. An example of the total questions in each section and the marking for the questions is displayed below:

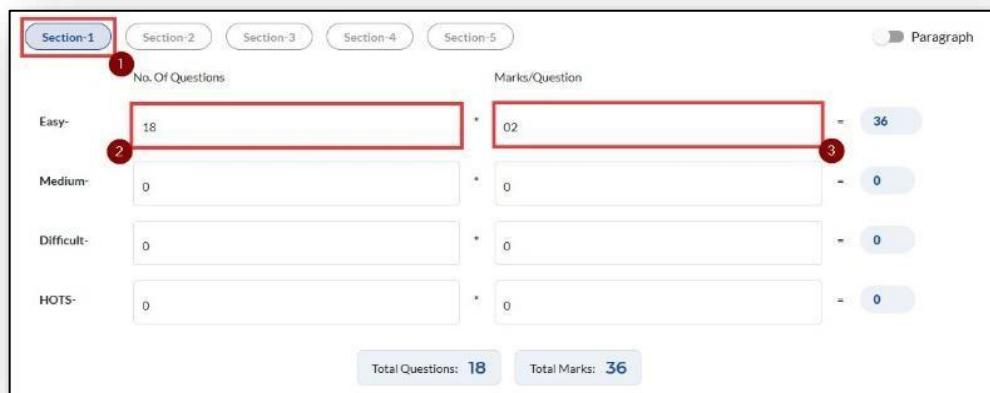

Level	No. of Questions	Marks per Question	Total	Pass Marks
Easy	18	1	18	9
Medium	14	2	28	14
Difficult	10	3	30	15
HOTS	6	4	24	12
TOTAL	48		100	50

Number of questions and marks for each question should be specified as follows:

- Section-1 for Easy
- Section-2 for Medium
- Section-3 for Difficult
- Section-4 for HOTS

Specification	Rationale
No. of Questions (total 48-50)	As the difficulty increases, fewer questions are needed because these are typically more complex and time-consuming, so fewer of them can still provide a robust assessment of advanced competencies.
Marks/Question (1 for Easy, 2 for Medium, 3 for Difficult, 4 for HOTS)	By assigning more marks to more difficult questions (Medium, Difficult, HOTS), the system rewards higher-order thinking and problem-solving abilities, encouraging learners to develop and demonstrate advanced competencies.

Once you enter the number of questions and allocate marks for each question, the total marks for that section will be auto generated.

Section-1 Section-2 Section-3 Section-4 Section-5 Paragraph

No. Of Questions Marks/Question

Easy- 18 * 02 = 36

Medium- 0 * 0 = 0

Difficult- 0 * 0 = 0

HOTS- 0 * 0 = 0

Total Questions: 18 Total Marks: 36

18. Select Yes for Marks/Question Display, Yes for Sectional Passing Percentage, and No for Sectional Time Bound.

Show Marks/Question * ☒ Yes ☐ No	Sectional Passing Percentage * ☒ Yes ☐ No	Sectional Time Bound * ☐ Yes ☒ No
---	--	--

Specification	Rationale
Click 'Yes' in 'Show marks/Question	Help the learners to understand the weightage and prioritize their efforts to focus on higher-value questions
Click 'Yes' on Sectional 'Passing percentage'	Ensures that learners achieve a minimum level of proficiency in all areas of the assessment, promoting a more balanced and comprehensive understanding of the subject matter.
Click 'No' on 'Sectional Time Bound'	Removing time constraints for each section allows learners to manage their time more effectively and allocate more time to challenging sections

19. Set the Minimum Passing percentage

Minimum Passing Percentage * 50
Negative Percentage% Question * 0%

Specification	Rationale
Type '50' in 'Minimum Passing Percentage'	As per the decisions in the Cabinet Secretariat Coordination Unit (CSCU) meeting. Ensures that learners have achieved at least half of the required knowledge and skills, indicating a basic level of competency in the subject matter.
Click on 0% in 'Negative Percentage Question'	Enables the focus to shift from penalizing mistakes to encouraging learning and improvement.

20. Set Re-attempts and Duration

Number of Re-attempts ⓘ * 9	Duration (hh:mm:ss) * 1 : 0 : 0
--	--

Specification	Rationale
Click on '9' from the dropdown in 'Number of Re-attempts'	Allows learners to review their mistakes, understand the correct answers, and try again, which reinforces their knowledge and skills over time.
Type '1' in the hh section of 'Duration (hh:mm:ss)', i.e., the assessment will be of one hour	Balances the need to thoroughly evaluate the learner's knowledge while considering their attention span and reducing fatigue.

21. Add APAR Comprehensive Assessment Instructions

Instructions *

a. All questions are compulsory

b. Pass marks is 50%

c. There is no negative marking

d. Duration of assessment is one hour

e. Skipped questions can be attempted again before submitting

f. If the given time runs out, the answer will be auto submitted

250/500

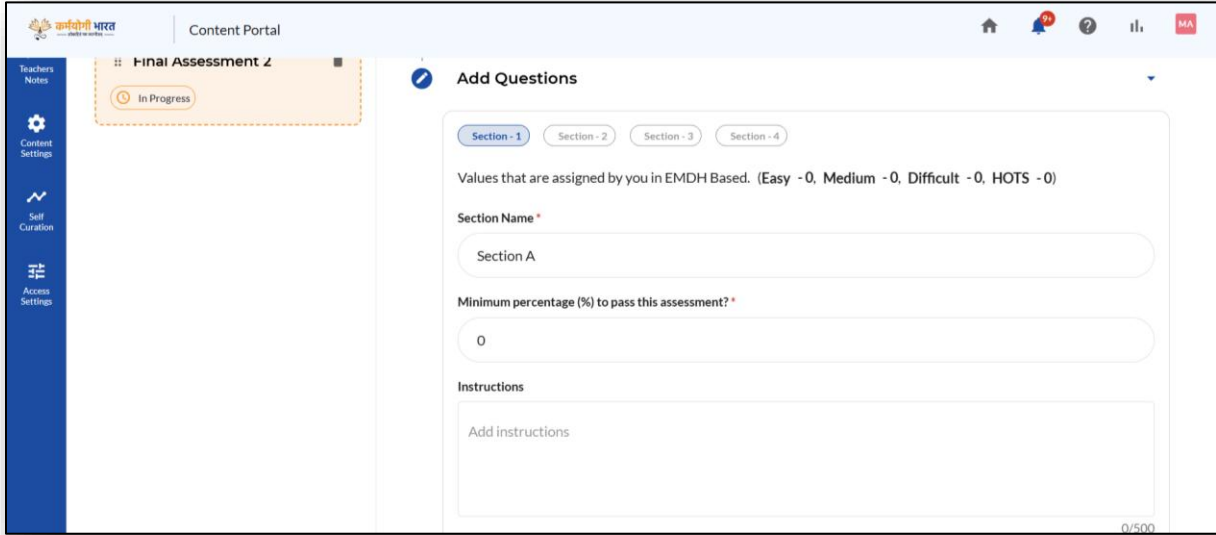

Save

Add Questions ⓘ

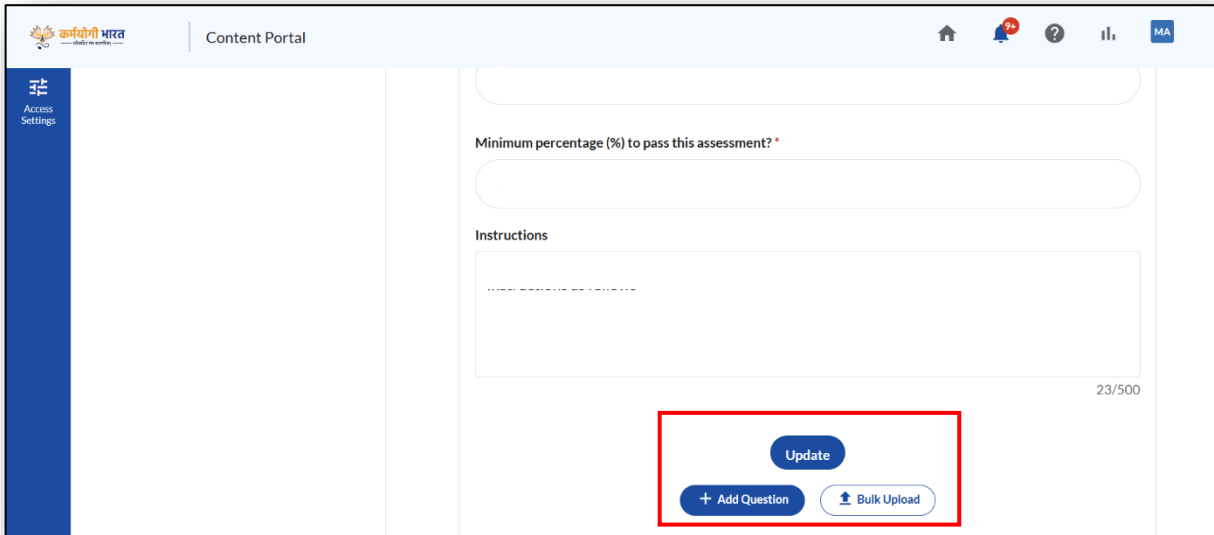

The following instructions can be given:

- All questions are compulsory*
- Pass marks = 50%*
- There is no negative marking*
- Duration of assessment is one hour*
- Skipped questions can be attempted again before submitting*
- If the given time runs out, the answer will be auto-submitted*

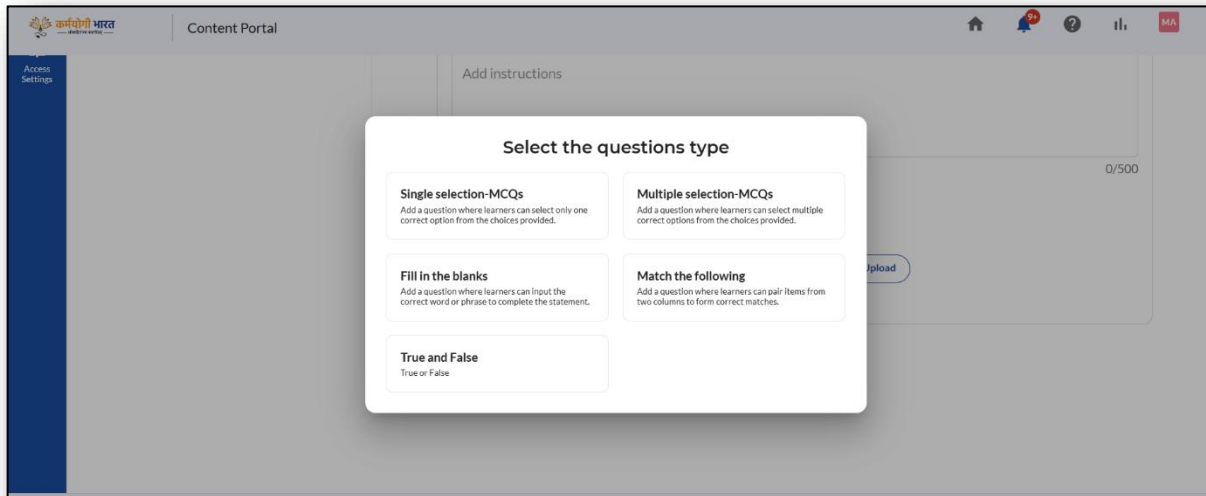

22. Now, click on ‘Save’ and proceed to ‘Add Questions’. Specify the section name, passing percentage as 50% and instructions as mentioned above.

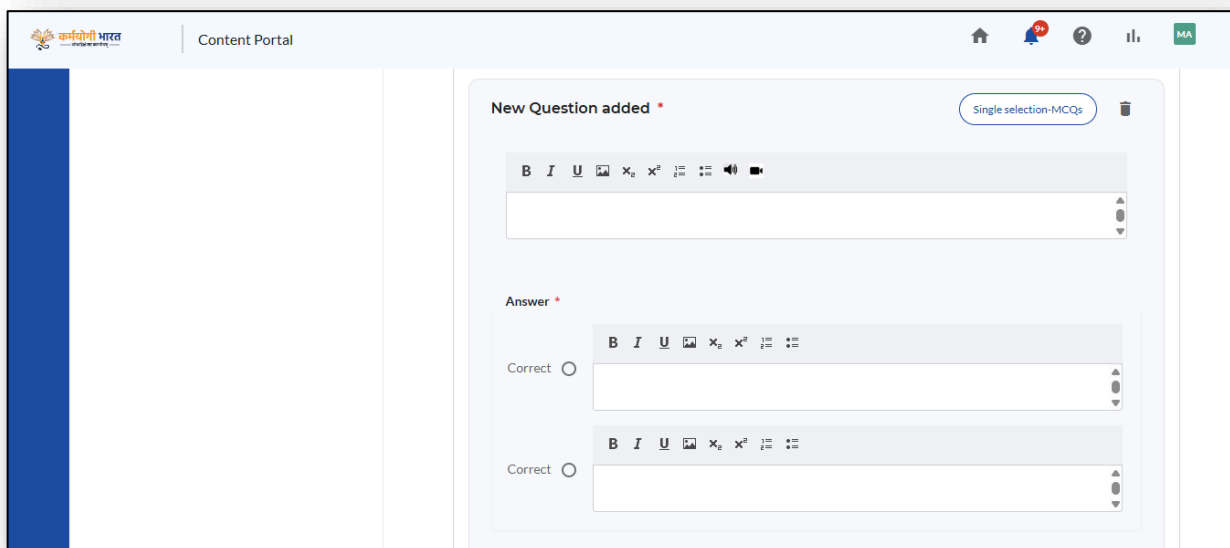

23. Add questions either manually or through bulk upload.

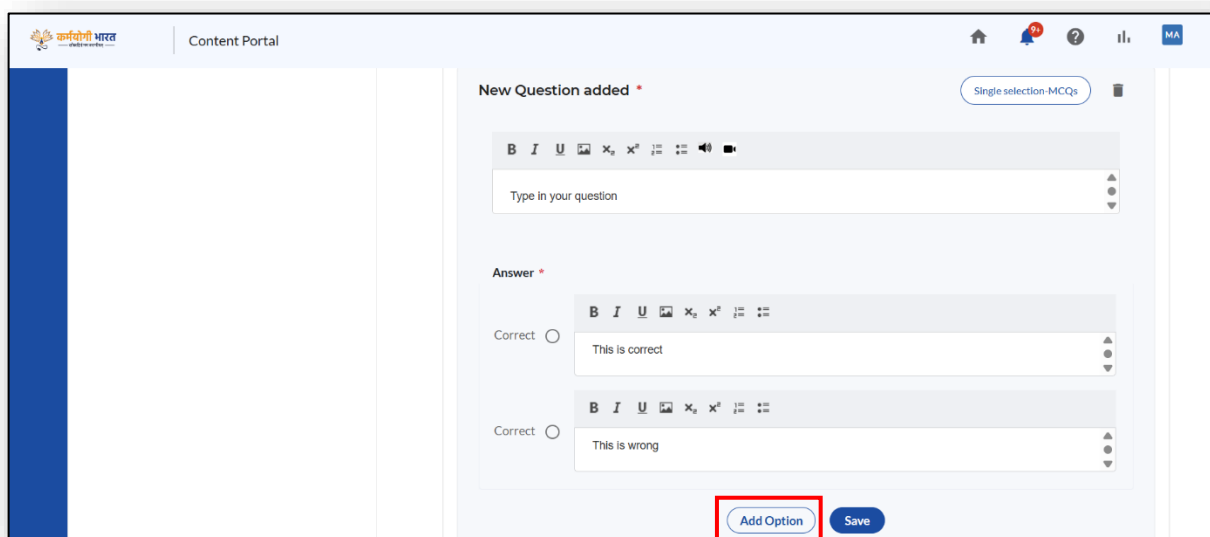

24. To add questions manually, click on the ‘Add Question’ button and select the desired question type.

25. For Single Selection MCQs, enter the question and answer options.

26. To add more options, click on 'Add Option'.

Note: For single-selection MCQs, select only one correct option and for multiple-selection MCQs, select multiple correct options as required.

28. For Fill in the Blanks, enter the question, use ‘Add Blank’ to insert blanks, and click ‘Save’.

The screenshot shows the 'New Question added' interface for the 'Fill in the blanks' question type. The interface includes a toolbar with options like Bold (B), Italic (I), Underline (U), and a red box highlighting the 'Add Blank' button. Below the toolbar, there is a text input field containing 'This is the _____ answer' and a label 'No. of blanks added = 1'. Under the 'Answer' section, there are two rows: 'I. Correct' and 'II. Wrong', each with a text input field and a close button (X). At the bottom right, there are 'Add Option' and 'Save' buttons, with the 'Save' button highlighted by a red box.

29. For Match the Following, enter the question and pairs of options, and click ‘Save’.
 (Note: Correct answers should be placed in the same row. Options will be shuffled when displayed to learners.)

The screenshot shows the 'New Question added' interface for the 'Match the following' question type. The interface includes a toolbar with options like Bold (B), Italic (I), Underline (U), and a red box highlighting the 'Add Blank' button. Below the toolbar, there is a text input field containing 'Match the following'. Under the 'Answer' section, there are two rows. Each row has a text input field for the question (e.g., 'Text 1', 'Text 2') and a text input field for the correct answer (e.g., 'Correct 1', 'Correct 2'). Each row also has a close button (X). At the bottom right, there are 'Add Option' and 'Save' buttons.

General Guidelines

- **Follow the Defined Format:** Ensure you use the specified template format for all questions.
- **Define Question Type:** In Column B 'QuestionType', use the following abbreviations to define the Question Type
 - MCQ-SCA: Multiple Choice Question - Single Correct Answer
 - MCQ-MCA: Multiple Choice Question - Multiple Correct Answers
 - T/F: True/False
 - FTB: Fill in the Blanks
 - MTF: Match the Following
- **Question Tagging:** Use the same question tagging format (Difficulty Levels or Proficiency Levels) as declared in the Basic Information section on the platform. In column D 'QuestionTagging', use the following label to define the declared Question tag:
 - **Difficulty Levels (EMDH):**
 - Easy
 - Medium
 - Difficult
 - HOTS
 - **Proficiency Levels:**
 - Proficiency1
 - Proficiency2
 - Proficiency3
 - Proficiency4
- **Avoid Junk characters:** Recreate similar question formats and labels as defined in this guide and template. Prevent any language errors.
- **Review After Upload:** Ensure to select the same number of questions with proper tagging after bulk upload.
- **Edits on the Platform:** Feel free to make any format changes to the questions once uploaded on the platform.
- **Disclaimer:** In case the csv file template shows an error upon uploading on iOS, please ignore the error message.

Specific Instructions by Question Type

- **Multiple Choice Question - Single Correct Answer (MCQ-SCA)**
 - Add the question in **Column C ‘Question’**.
 - **Options:** List all possible options in the given columns labelled as ‘Option1’, ‘Option2’, etc. Indicate the one correct option by marking 'Yes' and other incorrect options by marking ‘No’ in each adjacent column labelled as 'isOption1Correct', ‘isOption2Correct’, etc.
- **Multiple Choice Question - Multiple Correct Answers (MCQ-MCA)**
 - Add the question in **Column C ‘Question’**.
 - **Options:** List all possible options in the given columns labelled as ‘Option1’, ‘Option2’, etc. Indicate the correct options by marking 'Yes' and incorrect options by marking ‘No’ in each adjacent column labelled as 'isOption1Correct', ‘isOption2Correct’, etc.
- **True/False (T/F)**
 - Add the statement in **Column C ‘Question’**.
 - **Options:** Use 'TRUE' as ‘Option1’ and 'FALSE' as ‘Option2’. Indicate the correct option by marking 'Yes' and incorrect option by marking ‘No’ in each adjacent column labelled as 'isOptionCorrect'.

QuestionNo	QuestionType	Question	QuestionTagging	Option1	isOption1Correct	Option2	isOption2Correct	Option3	isOption3Correct	Option4	isOption4Correct
1	MCQ-SCA	What shape is the moon?	Proficiency1	Triangle	No	Square	No	Round	Yes		
2	MCQ-MCA	What are the characteristics of the moon?	Proficiency1	White	Yes	Round	Yes	Big	Yes	Square	No
3	T/F	The moon is square	Proficiency1	TRUE	No	FALSE	Yes				

- **Fill in the Blanks (FTB)**

- Add the statement with a '<blank>' in the defined format in **Column C 'Question'**. The Maximum number of blanks that can be added to the questions is 3.

Example: What is <blank> name of the first prime minister of India? What is the <blank> of the current Prime Minister of India? Indira Gandhi <blank> the first woman Prime Minister of India.

- **Options:** List the correct answers as per the number of blanks in the columns labelled as 'Option1', 'Option2', etc. Mark 'Yes' in each adjacent column labelled as 'isOptionCorrect'

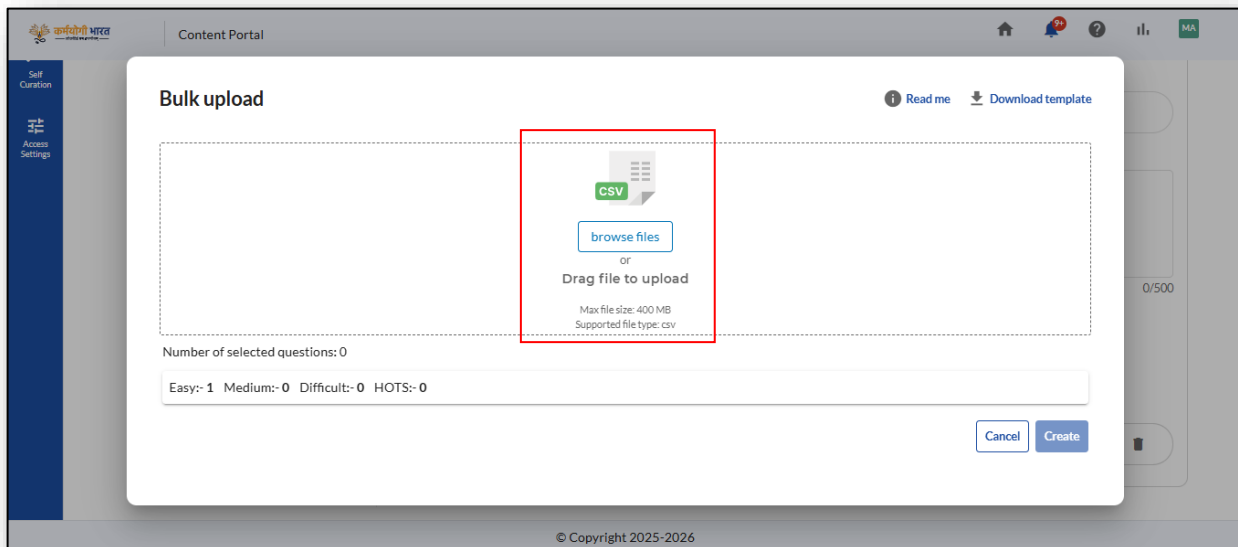

QuestionNo	QuestionType	Question	QuestionTagging	Option1	isOption1Correct	Option2	isOption2Correct	Option3	isOption3Correct
5	FTB	What is <blank> name of first prime minister of India. What is the <blank> of current Prime Minister of India? Indira Gandhi <blank> the first woman Prime Minister of India.	Proficiency1	the	Yes	name	Yes	was	Yes

- **Match the Following (MTF)**

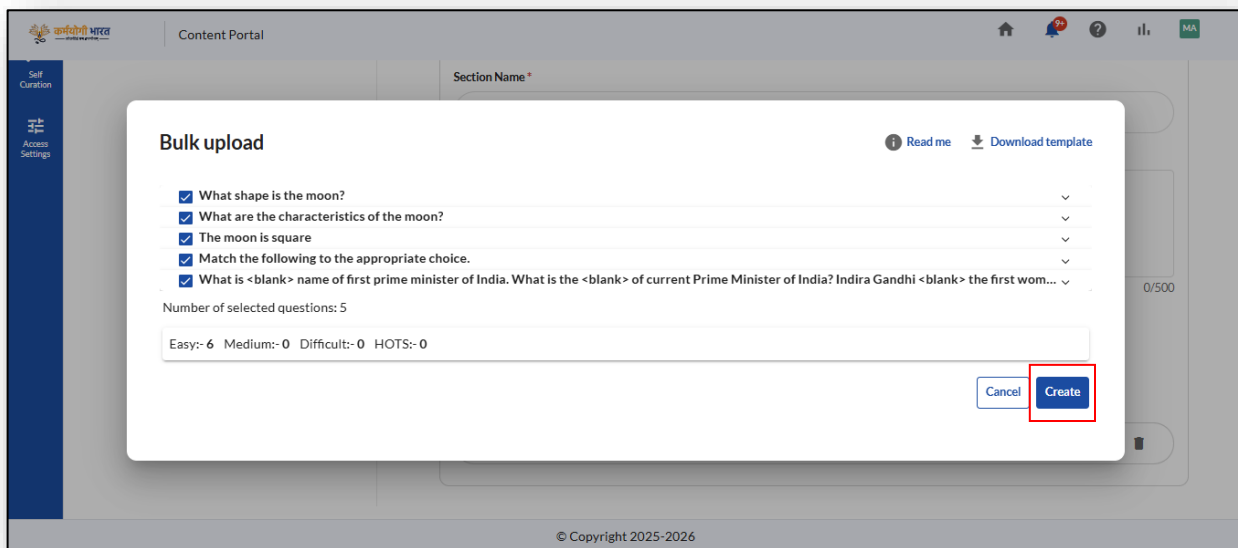

- Add the prompt 'Match the following to the appropriate choice.' in **Column C 'Question'**.
- **Options:** List the left-side options in columns labelled as 'Option1', 'Option2', etc. List the corresponding right-side match options in each of the adjacent columns labelled as 'isOption1Correct', 'isOption2Correct', etc.

QuestionNo	QuestionType	Question	QuestionTagging	Option1	isOption1Correct	Option2	isOption2Correct	Option3	isOption3Correct	Option4	isOption4Correct
4	MTF	Match the following to the appropriate choice.	Proficiency1	Moon	Sky	Boat	Water	Car	Land	Mango	Fruit

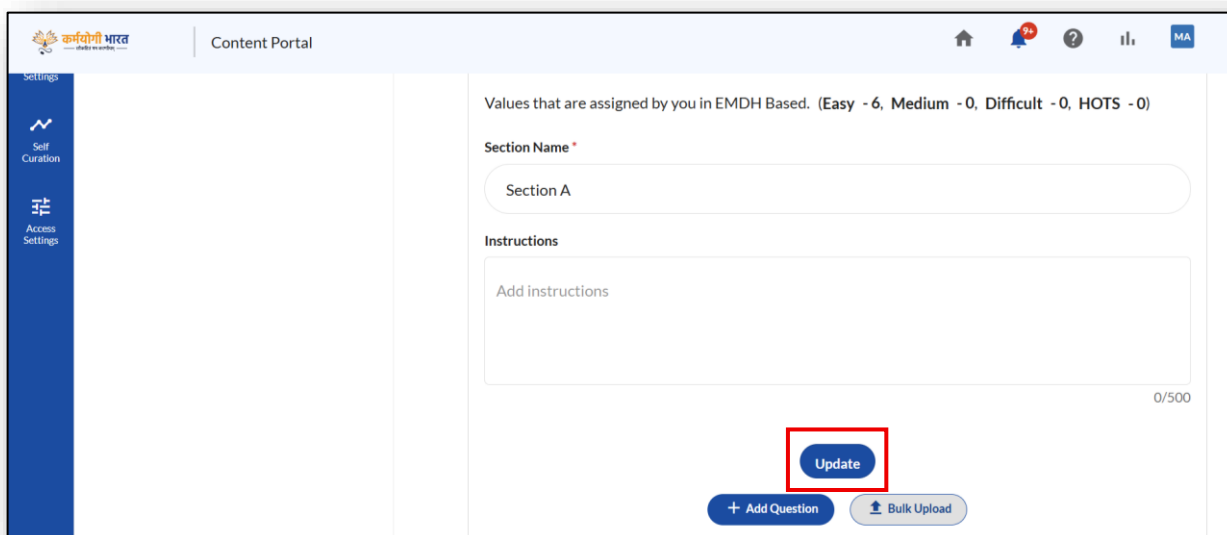

32. Once complete, save and upload the file.

33. After uploading, click on 'Create'.

34. Once the questions are uploaded, click on 'Update'.

Design your program here

Start designing your program by adding live courses, modules and offline sessions to create an engaging learner experience.

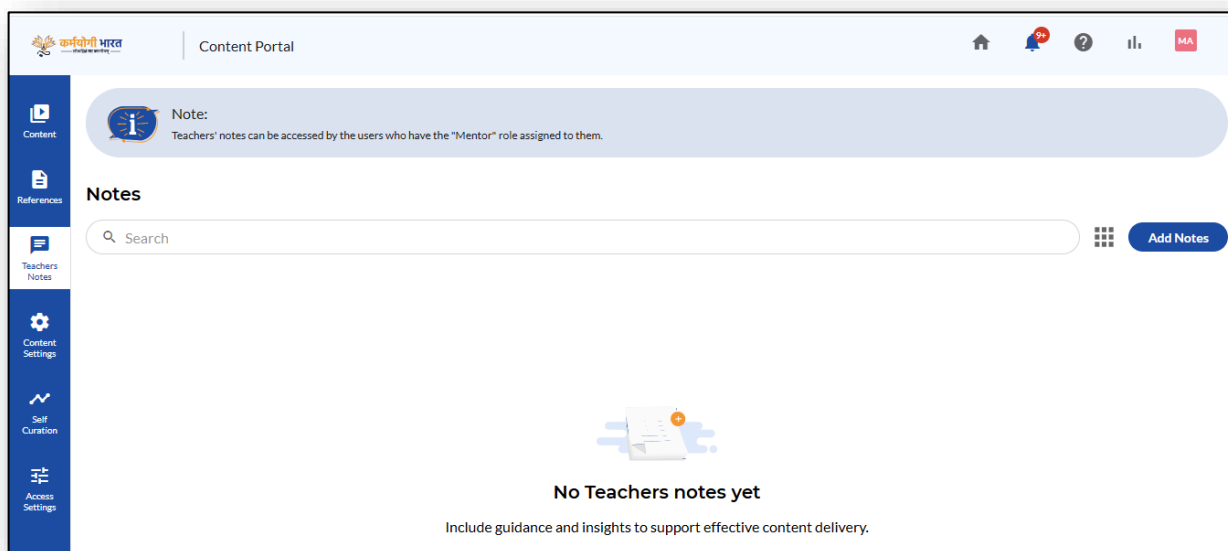

36. In References, click on ‘Add File’ to upload supporting material.

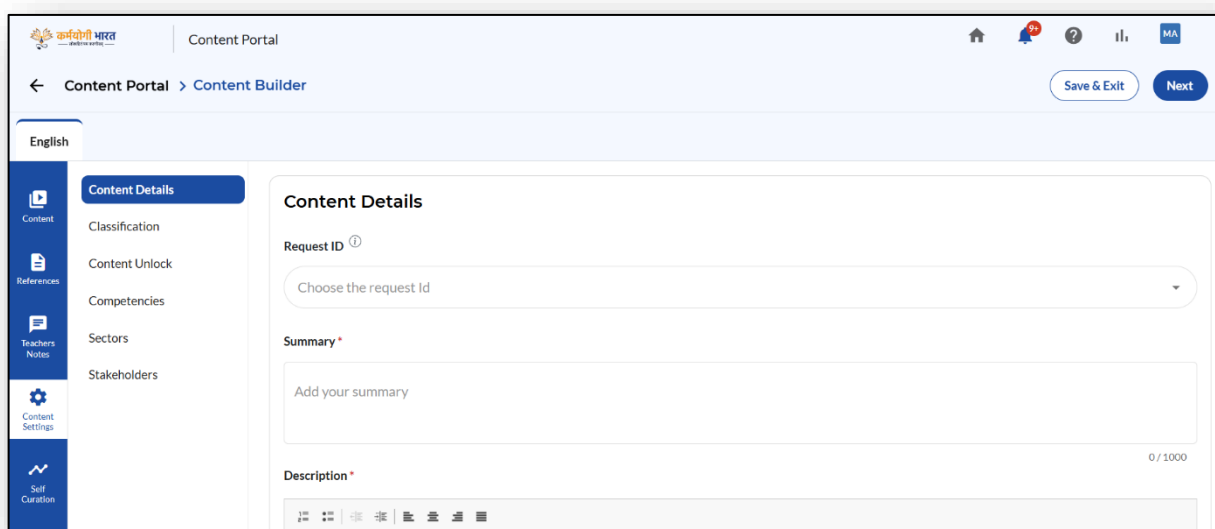

37. Enter Resource Name, upload the file, add duration, and click ‘Upload’. (This section is optional as per your requirement.)

 The screenshot shows the 'Add File' form in the 'Content Portal'. It includes a 'Resource name' field with a placeholder 'Add your resource name' and a character limit of 0/70. Below this is an 'Uploaded File' section with a dashed box for dragging a file, accompanied by the text 'Drag file to upload', 'Max file size: 1 GB', and 'Supported file types: MP4, PDF'. At the bottom, there is a 'Duration(hh:mm:ss)' field with three input boxes for hours, minutes, and seconds, all currently set to 0. 'Cancel' and 'Upload' buttons are located at the bottom of the form.

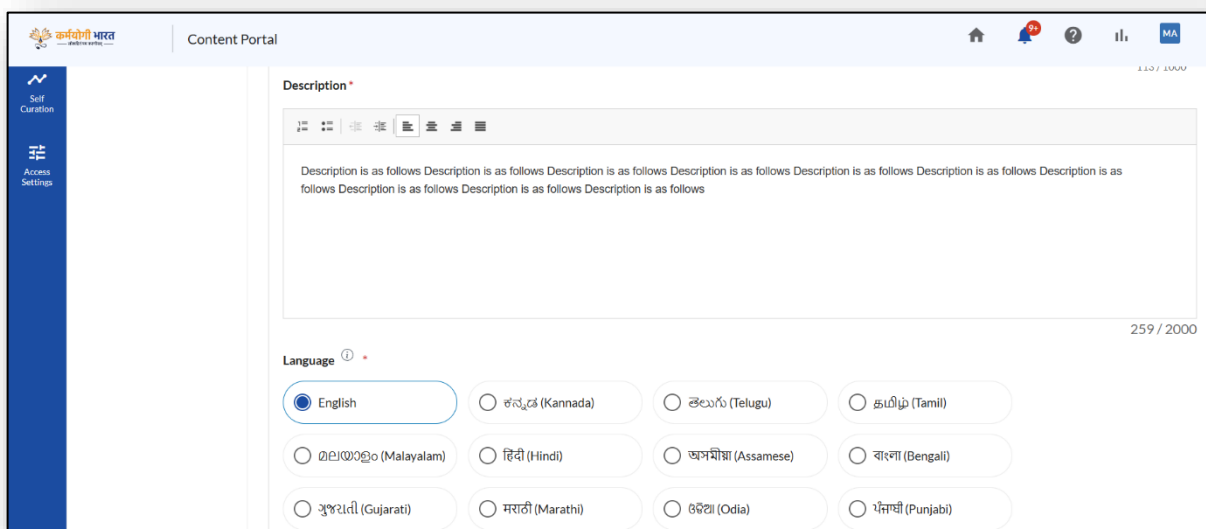

38. In Teachers Notes, add notes by clicking ‘Add Notes’ in the same manner as you have added references. *(This section is optional as per your requirement.)*

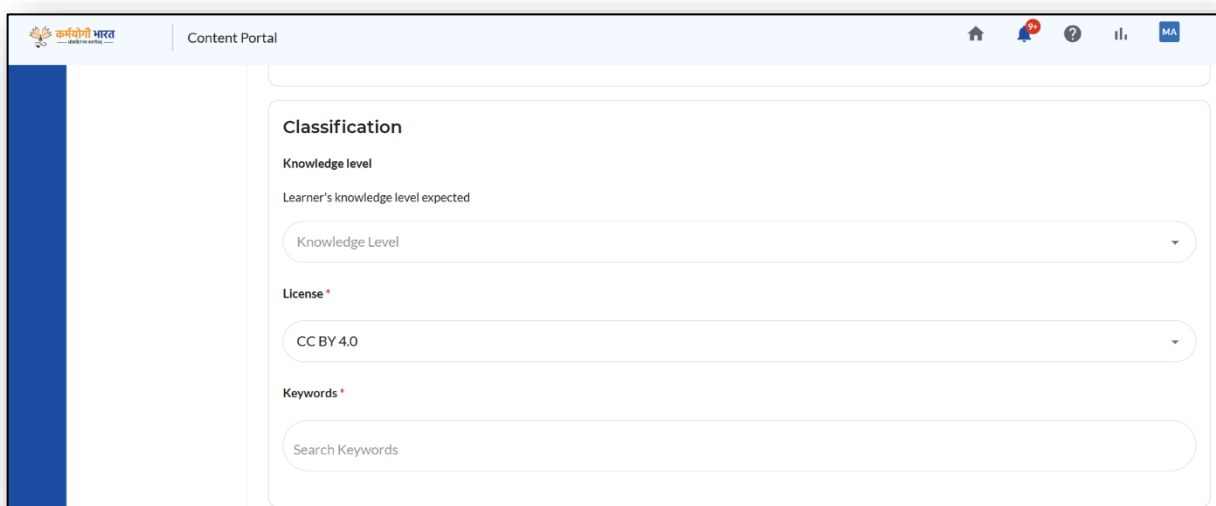

39. In the Content Settings section, fill in the Content Details – Enter the Request ID, add a Summary (Minimum 100 and Maximum 1000 characters).

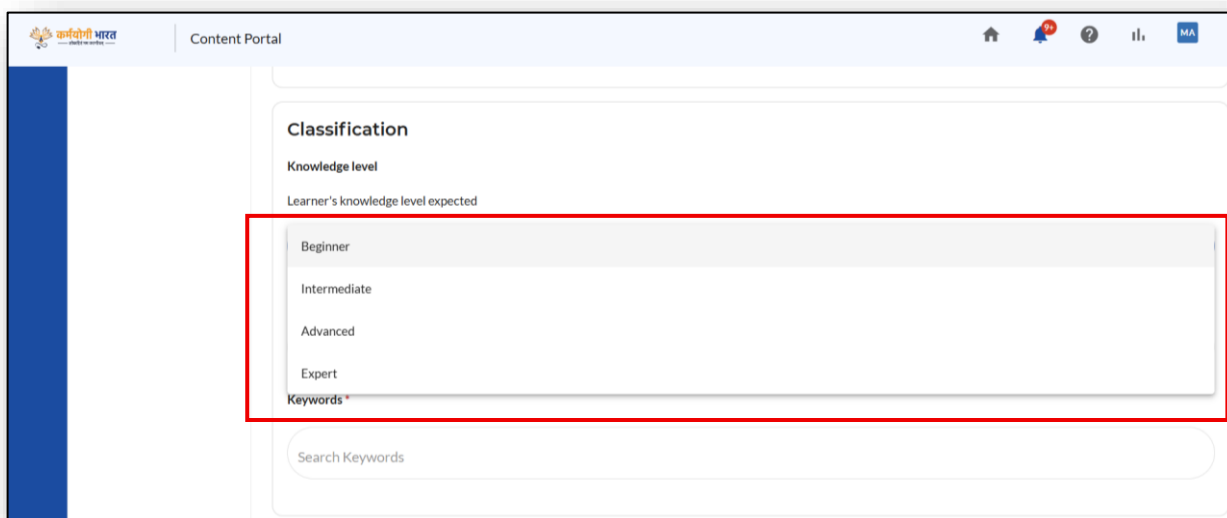

40. Add a Description (Minimum 250 and Maximum 2000 characters), and select the language.

41. Specify the classification.

42. Choose the learner's knowledge level and enter the keywords.

43. Mark/Unmark for the APAR Comprehensive Assessment to be locked.

Locked Assessments will get unlocked once the courses mandated are completed by the learners linked to the Assessment.

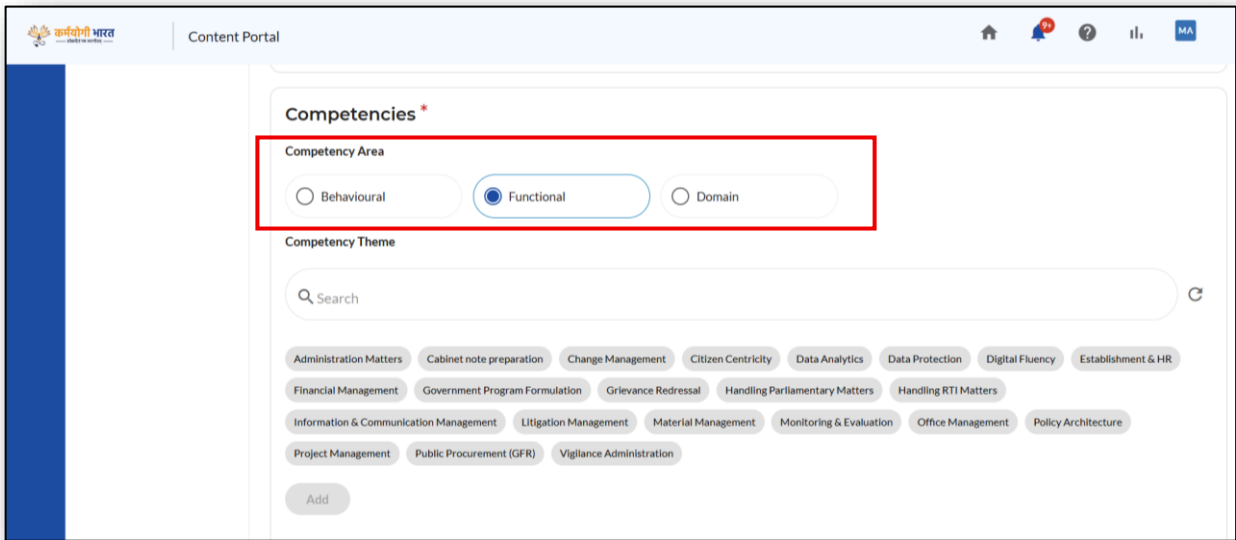

The Locking of the content enables the learners to appear for the APAR Comprehensive Assessment once they have completed the mandatory three courses on which the assessment is based. By keeping the content unlocked, users will be able to access the assessment even without completing the mandatory courses.

(Note: It is recommended to keep the content locked, to ensure completion of the mandatory courses before appearing on the APAR com assessment)

The screenshot displays the 'Content Portal' interface. At the top, there is a header with the 'कर्मयोगी भारत' logo and the text 'Content Portal'. Below the header, the main content area is divided into two sections. The first section, titled 'Content Unlock', contains a checkbox labeled 'Final Assessment Locked' and a note stating 'Final assessment will get unlock only when all the courses gets completed regardless of the order'. The second section, titled 'Competencies *', includes a 'Competency Area' section with three radio buttons: 'Behavioural', 'Functional', and 'Domain'. Below these buttons is an 'Add' button. At the bottom of this section, a red text message reads 'Competencies Detail Is Required'.

44. Choose Competency

50. Add the User Group.

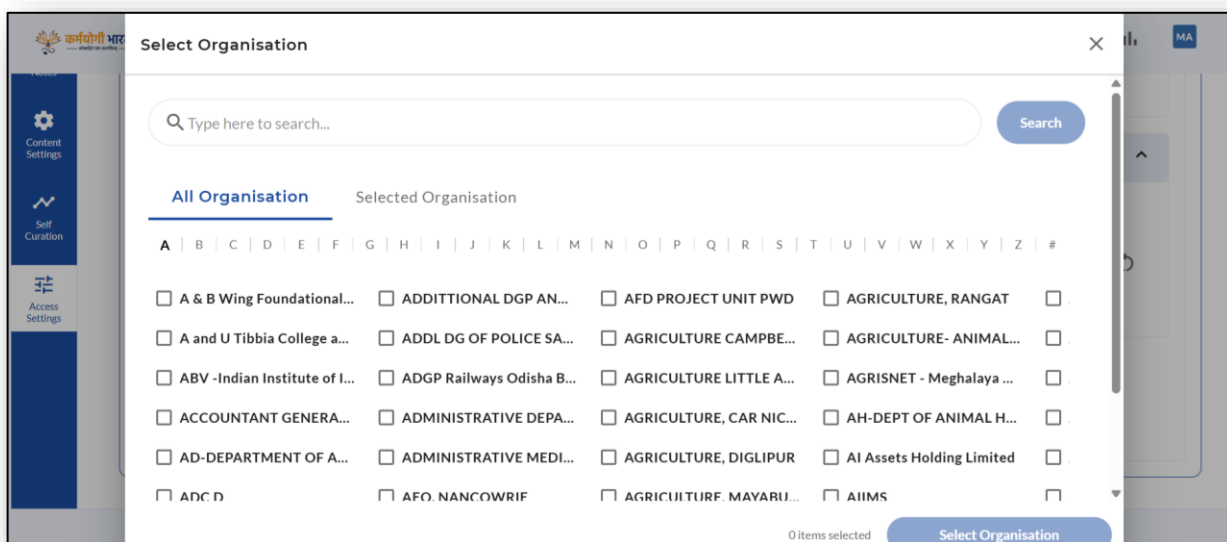

51. Select Condition 1.1 for the User Group by User, Organisation, Group, Designation, Verification Status of learners, Service or Cadre. *(Note: It is recommended to select the organisation as the first condition to avoid visibility of the assessment to the other MDOs.)*

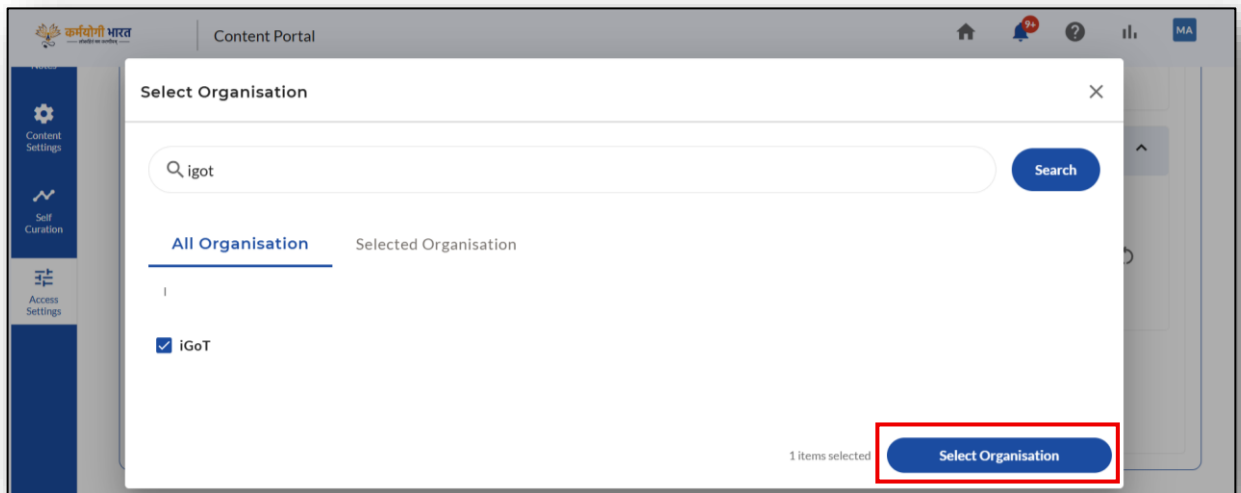

52. After selecting the Condition, click on 'Manage Selection'.

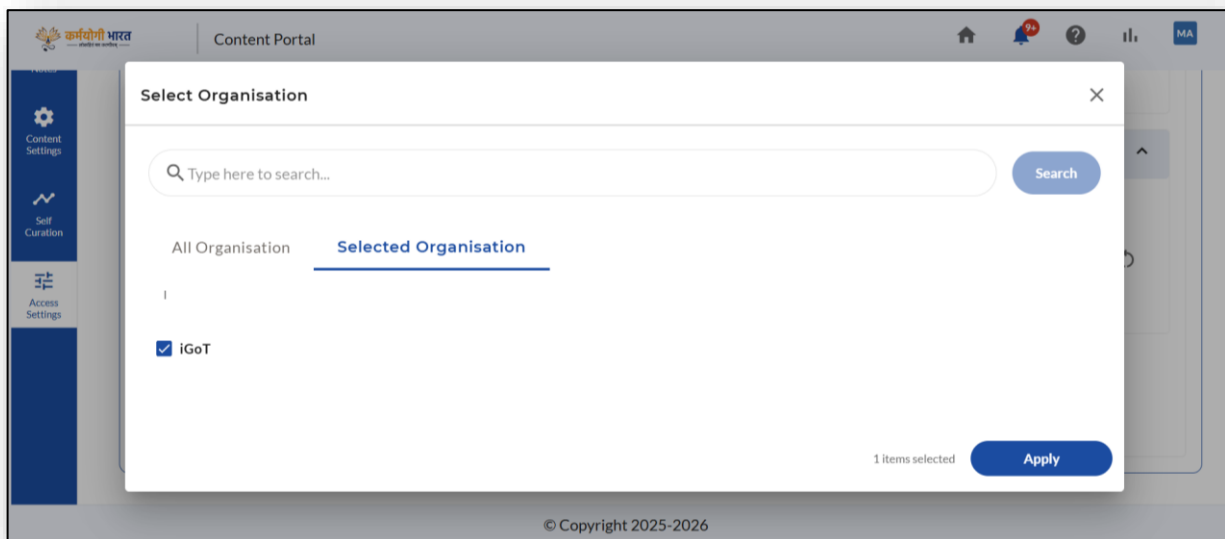

53. Search for your organisation in the All Organisation Tab either by typing the organisation name in the search bar and clicking search, or by selecting the initial alphabet of your organisation from the alphabetical series and then look for your organisation's name from the options.

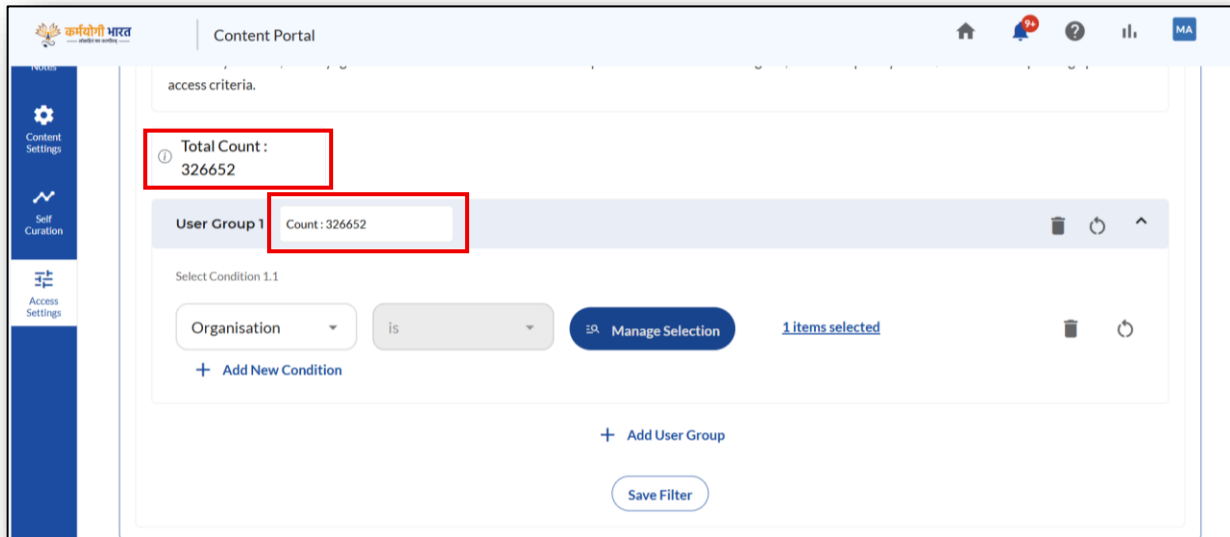

54. Mark the checkbox to select the organisation and click ‘Select Organisation’. To select more organisations, repeat the process.

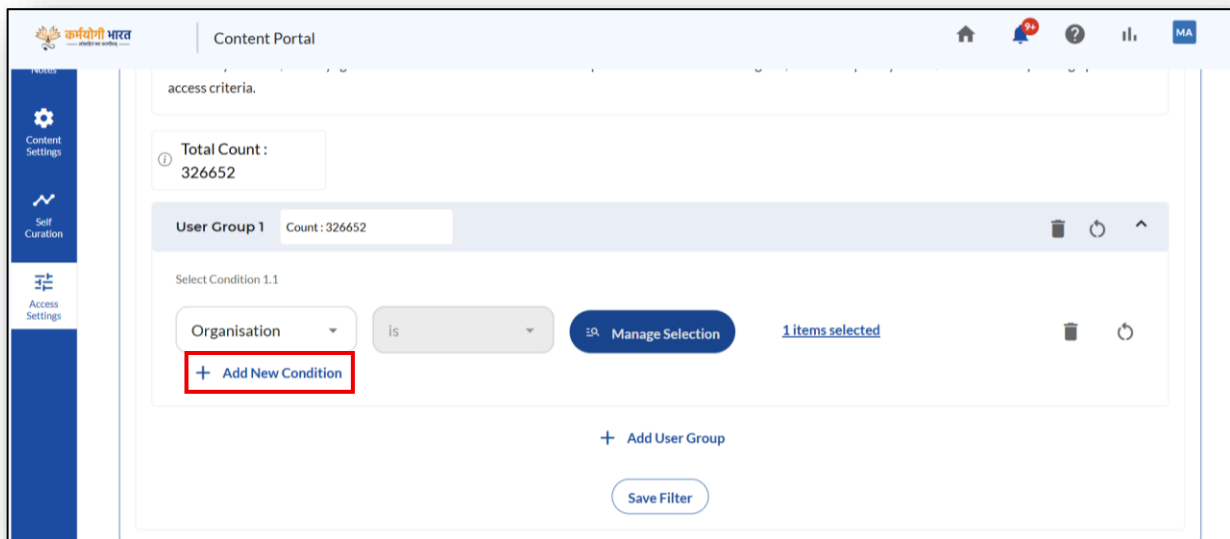

55. The selected organisations will appear in the ‘Selected Organisation’ tab. Click ‘Apply’.

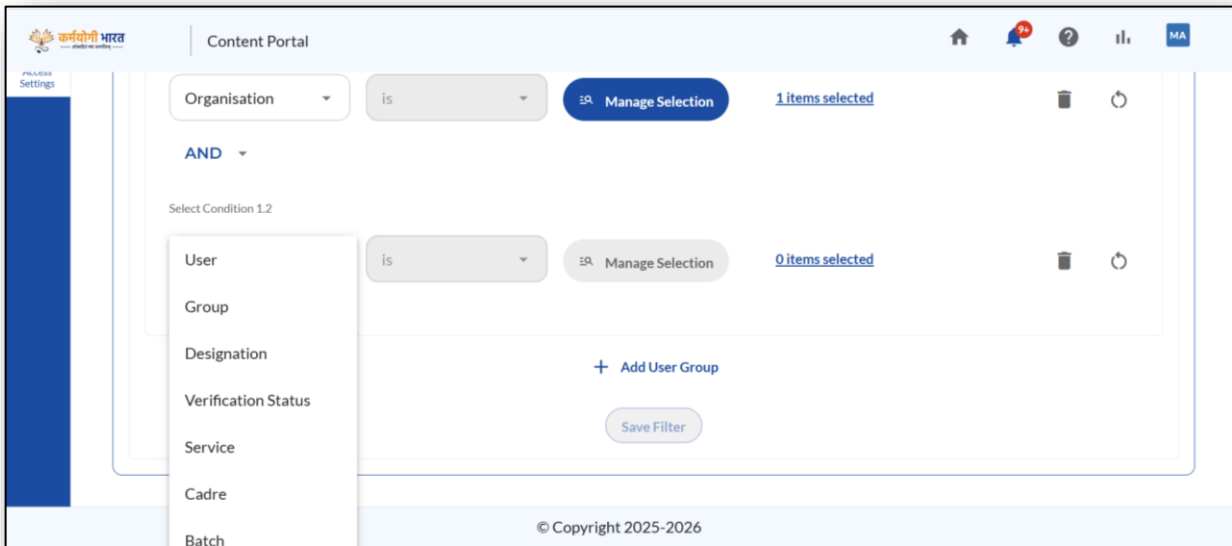

56. Once done, you will find the count of learners against each User Group created and the total count of learners at the top.

57. To add a new condition to the set of learners, click 'Add New Condition'.

58. Select Designation as the condition from the drop-down.
